

Setting Up Application Environment

Docker installation

Date	5nov2022
Team ID	PNT2022TMID41035
Project Name	Skill and Job Recommender Application

Step 1:

Go to the official website of Docker: <https://docs.docker.com/desktop/install/windows-install/>

Step 2:

Click the blue button (Docker Desktop for Windows) and download will start and it will take a few minutes to complete.

Step 3:

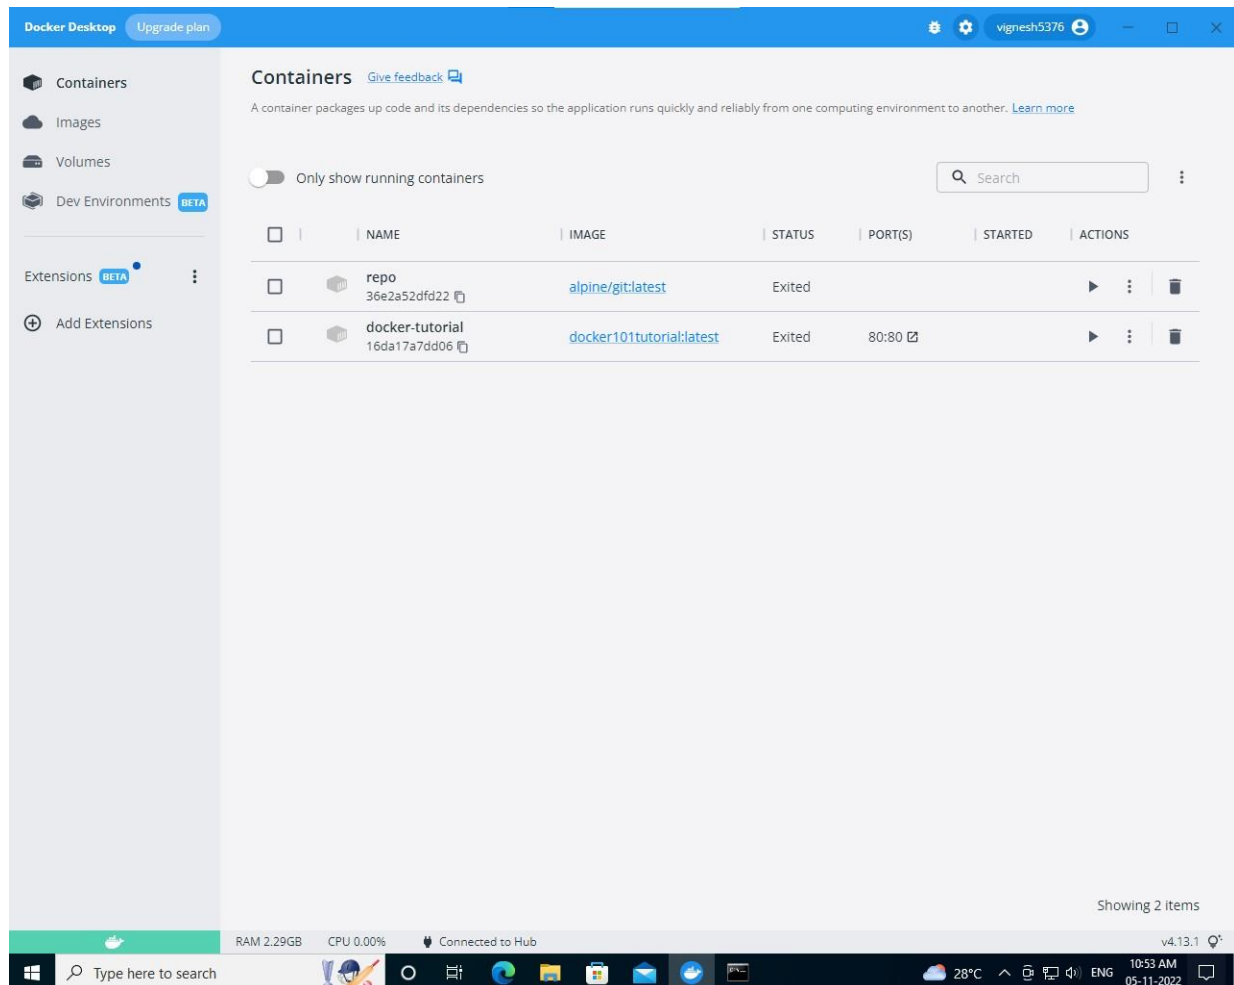

Go to downloads in browser (or) type **ctrl + J**, it will navigate to download page and double-click the particular docker file.

Step 4:

Now Installation is complete. This icon was added in your desktop. Double-click the icon to start the docker app, you can register and log into that app to access those credentials

Step 5:

Docker will start correctly, the left bottom side was shown in green color, docker will show the status of docker app working successfully.

Step 6:

Hence, the docker is installed successfully.
